ACKNOWLEDGEMENTS

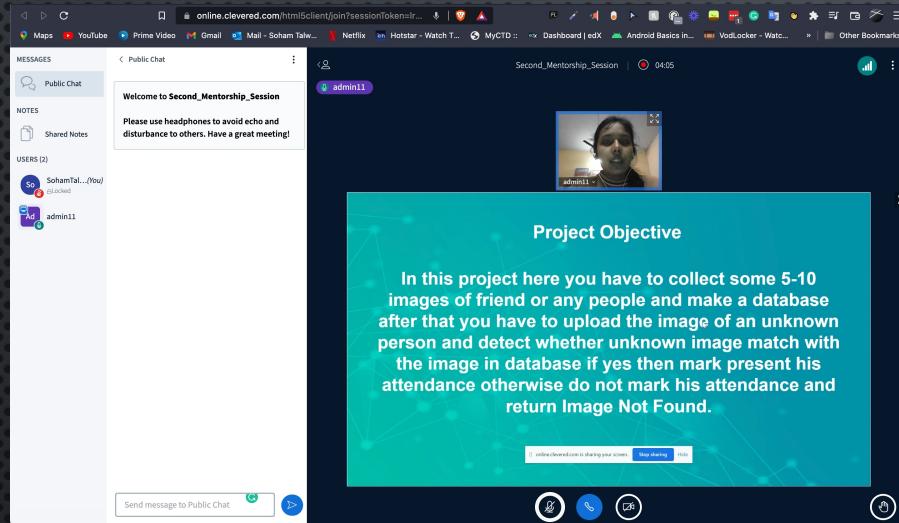

IN THE JOURNEY TO MAKE THE FACIAL RECOGNITION ATTENDANCE SYSTEM NAMED ATTENDENCE.IO . I HAVE RECEIVED HELP FROM DIFFERENT SOURCES. I WOULD LIKE TO THANK THE MENTORS AT CLEVERED AND MR. KEN WHO HELPED ME IN LEARNING THE CONCEPTS AND SYNTAX THAT HELPED ME IN CREATING THE APPLICATION. I WOULD ALSO LIKE TO THANK MY PARENTS FOR GIVING ME THE OPPORTUNITY TO PARTICIPATE IN AN INTERNSHIP WITH CLEVERED. I USED MULTIPLE SITES TO AID IN MY UNDERSTANDING OF THE CONCEPTS REQUIRED TO CREATE THIS APPLICATION. THE SITES INCLUDE GEEKSFORGEEKS.ORG, ASKPYTHON.COM AND DIGITALOCEAN.COM.

ABOUT ME..

My name is Soham Talwar, I am a 16 year old student of The international School Bangalore. I am fascinated by the potential of technology and have learnt that the most challenging concepts can be conquered, enjoyed, and leveraged to create a better world for all. Giving a robot the ability to think on its own has always intrigued me and is the reason for my fascination of artificial intelligence. As for what I do in my free time, I like to play video games and create robots.

ABOUT MY INTERNSHIP JOURNEY WITH CLEVERED..

My internship journey at Clevered was quite informative and fun. The Mentors were always ready to help. All the mentorship session were quite enjoyable and packed with information.

ABOUT APP..

Upload Your Image :

No file chosen

Attendance.io is a software that can be used organizations to keep record of the attendance of their employees or students. The application uses facial recognition to identify the person and records their attendance. Face recognition is used as it is cost-effective, touchless(huge benefit during covid), easy to manage and it works with aging.

HOW DO I USE THE APP?
